TARGET GROUP

- ☺ Children from 3 and over
- ☺ Educators: family, teachers and monitors.

DESCRIPTION OF THE SERIES

This is the series on plastic arts that every child and teacher has been waiting for. A collection with clear, precise concepts on starting out in the plastic arts – drawing, painting and sculpture – with examples that are easy for the child to understand.

An enjoyable series in which the child will get involved without any effort at all in the 10 artistic activities offered in each book of 48 pages, since these are novel, fun exercises and are adapted to the child's age (from 3 years old).

Each book presents:

- A theoretical *Introduction* that is easy to explain and understand.
- Step by step photos of ten exercises done by children 3, 4 and 5 years old, inviting all children of these ages to do them too.
- The reproduction of a work of a famous artist that corresponds to the theme of the book introduce the child to the world of art.
- The last pages provide stencils to make it easier to do some of the activities.

"I Have Fun With..." is a reference book for parents and educators in general that is full of new, practical, fun ideas to make their hours with the child a time that is both attractive and educational.
